## **Abstract**

JNTUJAC and Fake Government of Telangana are twin cybercriminal organizations that have had a prevailing cover in JNTUH academic environment. The condition demands cyber solutions for defusing the same. People's Governance Forum (PGF), a forum of IT researchers and students, devised by us, serves and supplies to the need of the hour to campaign through its ICT-based remedial manpower and machinery to solve the cybercrimes. This paper presents a *modus operandi* of the PGF appropriated for realizing the same. The empirical experience has seen accolades from the intelligentsia as well as the common place. We present the appreciated results of our research pabulum in our pursuit to recover from the deleterious effects of the India-abusive four-fold cybercrimes explored by us.
