We have devised a declaration for Social Media Usage Ethics. It keeps the society on the bedrock of values. Hence, abusive social media usage will tend to be on the wane. It is as follows.

I declare that I will use social media in such a way that

*I will not get addicted to Internet addiction

*I will not get addicted to Social Media

*I will not do X+DeltaX in social media usage i.e. I will not add social media addiction where as the Internet Addiction is already there

*I will check myself against self abuse by social media usage and that I will use only for self development

* I will use social media only for positive personality development

* I will use social media only ethically and not at all unethically

- * I will use social media only for character development
- * I will use social media for creative organization
- * I will use social media for social development and without any abuse of social group/organization
- * I will use social media for constructive purposes, positive thinking , knowledge sharing and expertise and positive FIRO-B
- * I will use social media only adaptively and not at all maladaptively
- * I will use social media with discriminative intelligence
- * I will use social media only with a prosocial behavior and not at all with antisocial behavior
- * I will use social media only with a pronational behavior and not at all with antisocial behavior
- *I will not use social media trivially wasting time by frivolous pursuits
