**ABSTRACT:** In this modern era of IT industry plays a vital role, that becomes a problem of the occurring for cybercrimes in the academics. Cybercrimes become a deadlock situation in the society and moreover become an effect of the IT. An instance where mishandling a cybercrime by the academic concerned public authority in the case of JNTUHHAC ([www.jntuhjac.com](http://www.jntuhjac.com)), becomes slowdown in the IT development.

We have introduced a People Governance Forum (PGF) through a Social Networking Site(SNS) usage that helps to provide Social Media Intelligence (SMI) to the victims and remedial solution to the cybercrime committed by an online organization (JNTUHHAC.com). We present information related to the cybercrime and giving awareness to the public through the social media.

**Keywords:** Govt. of Telangana (GoT), People Governance Forum (PGF), Social Media Intelligence (SMI), Web robot, intelligent agent, Sedition Law, identity theft, Mother India Consciousness (MIC).
