ABSTRACT

Analyze, Prioritize and Advise on selection of a GP for Adoption Having proven successful stories under Saansad Adarsh Gram Yojana which promotes the citizens of the country to adopt a village and work along with the community at the grass root level towards development of the villages, Member of Parliament, Academic Institutions, IT Professionals, Industries, NRIs, NGOs and Individual volunteers are working to achieve the above mentioned goal in a participatory manner. This application covers different functionalities like user registration, work flow and self-service programs. Using this system clients can be connected to detailed information of a Gram Panchayat. Analyze, Prioritized, Advised to Adopt a Particular Gram Panchayat (Village).Based on its development Rating Index. Directly and communicate with Officials for adoption. Development planning and Monitoring. Projects main idea is to implement an online portal for Gram Panchayat Adoption Advisor through which users can Analyze, Prioritize and Advise related to Gram Panchayat information at one place. In order to provide an integrated software application which will cover information of Gram Panchayat in single software application. Using this application in any User can save time and reduce cost of human resource.

Keywords:- Prioritize, Industries, Rating Index, Gram Panchayat.
